Activity Report (2020-21)

Department of Geography

Name of the Activity	Remedial & Advanced Teaching Date: 01 July 2020 to 30 July 2020
Committee	Department of Geography
Objectives	To give additional help to student who, for one reason or another, have fallen behind the rest of the class in the subject and support to the student who learn fast specially.
Brief Report	<p>Each student is different in terms of learning ability, academic standards, classroom learning and academic performance and each has his own in learning. The aim of Remedial Coaching is to provide learning support to students who lag far behind their counterparts in school performance and also support to the student who learn fast.</p> <p>Special attention is given to improve performance of slow as well as advanced learners by providing them extra coaching. Both learners are identified on the basis of result of diagnostic test. There is not a uniform level of understanding among all the students. Some students have grasped the concepts faster than others and some may not have understood at all because of absence or other reasons. This is reflected in the conclusion of every assessment tool. To address this issue, we have formed special groups of advanced and slow learners and designed appropriate programs for them.</p>
Outcomes	Remedial & advanced Coaching helps to provide learning support to students who lag far behind their counterparts in class performance and also support to the student who learn fast.
