Green Campus Policy Document

Effective Date: June 1, 2019

Authorized By: Dr. Yojana Jugale, Principal

1. Introduction

Hon. Shri Annasaheb Dange ACS College, Hatkananagle, embraces a vision of sustainability and environmental responsibility. This Green Campus Policy represents our steadfast commitment to promoting a greener future. Our objective is to create a campus environment that champions ecological stewardship and raises awareness about sustainable practices.

2. Energy Efficiency and Conservation

2.1. Renewable Energy: To reduce our carbon footprint, we actively harness renewable energy sources. Solar street lights illuminate our campus pathways, while solar water heating systems provide energy-efficient hot water solutions. Sensor-based bulbs ensure optimal lighting while minimizing unnecessary energy consumption. We prioritize these non-conventional energy resources to reduce our reliance on fossil fuels and lower greenhouse gas emissions.

2.2. Energy Conservation: Our ongoing efforts in energy conservation involve the regular maintenance and upgrade of campus facilities. By adhering to energy efficiency standards and best practices, we aim to minimize energy consumption, thus contributing to a sustainable future.

3. Waste Management

3.1. Solid Waste Management: The College has established an Annual Maintenance Contract (AMC) with the Nagar Panchayat, Hatkanangale, to responsibly manage solid waste. This partnership ensures the collection and disposal of solid waste in a manner that aligns with environmentally friendly practices. An AMC with Mr. Prashant Dadde, a trusted local service provider, ensures the proper disposal of electronic waste (e-waste). We actively encourage the segregation of waste into recyclables and non-recyclables, further reducing our environmental impact.

3.2. Liquid and Chemical Waste: Liquid and chemical waste generated within the College undergo treatment through environmentally sound methods, including the use of sinkholes. These measures guarantee that waste materials are managed responsibly and do not pose harm to the environment.

4. Water Conservation

The College is dedicated to water conservation. Used water is meticulously treated and recycled for various purposes, including irrigating the botanical garden and nourishing other green spaces across our campus. These innovative practices minimize water wastage and promote responsible water usage.

5. Green Transportation

The last Saturday of every month has been designated as "No Vehicle Day" within the College Campus. On this day, local vehicles, including motorized two-wheelers and four-wheelers, are strictly prohibited from entering the College grounds. Commercial vehicles, such as delivery trucks and vans, are also denied entry. Instead, we prioritize the use of bicycles and promote pedestrian-friendly pathways to reduce emissions and create a greener transportation environment. These measures help reduce air pollution and create a healthier, eco-friendly campus.

6. Environmental Education and Awareness

The College actively engages in a variety of programs and activities aimed at promoting environmental education and awareness among students and staff. Workshops, seminars, tree-planting events, and awareness campaigns are regularly organized to empower our community with knowledge and motivation for sustainable living. Through these initiatives, we inspire individuals to become proactive stewards of our planet.

7. Compliance and Accountability

7.1. **Community Responsibility:** We expect all members of the College community, including students, faculty, staff, and visitors, to fully embrace and adhere to the principles outlined in this Green Campus Policy.

7.2. **Principal's Role:** Dr. Yojana Jugale, as the principal, plays a central role in enforcing and monitoring compliance with this policy, ensuring that our commitment to sustainability is upheld.

8. Review and Update

8.1. **Policy Review:** Periodic reviews are conducted to assess the effectiveness of this policy and its alignment with the College's sustainability goals and objectives. Updates and revisions will be made as necessary to reflect evolving best practices and environmental regulations.

Waste Management Policy for College Campus

Policy Title: Waste Management Policy

Effective Date: June 1, 2019

Authorized By: Dr. Yojana Jugale, Principal

1. Purpose and Scope

The Waste Management Policy of Hon. Shri Annasaheb Dange ACS College, Hatkananagle, outlines the College's commitment to responsible waste management practices. This policy encompasses the management of solid waste, liquid waste, electronic waste (e-waste), wastewater recycling systems, and chemical waste. The policy serves as a guiding framework for all waste-related activities within the College premises.

2. Solid Waste Management

The College has entered into an Annual Maintenance Contract (AMC) with the Nagar Panchayat, Hatkanangale, for the collection and disposal of solid waste. The key components of our solid waste management policy are as follows:

2.1. **Segregation:** Waste generated within the College shall be segregated into recyclables and non-recyclables, following the guidelines provided by the AMC service provider.

2.2. **Proper Disposal:** Non-recyclable waste shall be disposed of as per the terms of the AMC with the Nagar Panchayat, Hatkanangale.

2.3. **Recycling:** Recyclable waste shall be collected separately and sent for recycling as per the local recycling guidelines.

3. Liquid Waste Management

Liquid waste, including wastewater, shall be managed within the College premises following environmentally responsible practices. The key components of our liquid waste management policy are as follows:

3.1. **Treatment:** Liquid waste shall be treated using sinkholes and other appropriate methods to ensure proper disposal and prevent environmental contamination.

4. E-Waste Management

The College has entered into an AMC with Mr. Prashant Dadde, a local service provider, for the proper management of electronic waste (e-waste). The key components of our e-waste management policy are as follows:

4.1. **Collection:** E-waste generated within the College shall be collected separately and handed over to Mr. Prashant Dadde as per the terms of the AMC for safe disposal or recycling.

4.2. **Awareness:** Awareness programs shall be conducted periodically to educate staff and students about the importance of proper e-waste disposal.

5. Waste Water Recycling System

The College shall implement wastewater recycling systems to reduce water consumption and promote sustainability. The key components of our wastewater recycling system policy are as follows:

5.1. **Installation:** The College shall install water recycling systems wherever feasible to reuse treated wastewater for non-potable purposes.

5.2. **Maintenance:** Regular maintenance and monitoring of the recycling systems shall be conducted to ensure their efficient operation.

6. Chemical Waste Management

The College shall adopt stringent practices for the management of chemical waste generated during laboratory and research activities. The key components of our chemical waste management policy are as follows:

6.1. **Collection:** Chemical waste shall be collected in accordance with safety guidelines and disposed of through authorized channels to prevent environmental harm.

6.2. **Training:** Staff and students handling chemicals shall receive training on proper disposal procedures and safety measures.

7. Compliance and Accountability

7.1. All members of the College community are expected to adhere to this Waste Management Policy.

7.2. The Principal, Dr. Yojana Jugale, is responsible for the enforcement of this policy.

7.3. Regular audits and assessments shall be conducted to ensure compliance with waste management practices.

8. Review and Update

8.1. This policy shall be reviewed periodically to ensure its effectiveness and alignment with changing waste management regulations and best practices.

Policy on - Eco-Friendly Vehicle Usage in Campus

Effective Date: June 15, 2019

Authorized By: Dr. Yojana Jugale, Principal

1. Purpose and Scope

The Eco-Friendly Vehicle Usage Policy of Hon. Shri Annasaheb Dange ACS College, Hatkananagle, outlines the College's commitment to promoting environmentally responsible and sustainable transportation practices within the campus. This policy aims to reduce carbon emissions, improve air quality, and enhance the overall well-being of the College community.

2. No Vehicle Day

To encourage sustainable transportation, the College has designated the last Saturday of every month as "No Vehicle Day" within the College Campus. On this day:

2.1. Local Vehicle Restriction: Local vehicles, including motorized two-wheelers and four-wheelers, are prohibited from entering the College Campus.

2.2. Commercial Vehicle Prohibition: Commercial vehicles, including delivery trucks and vans, are not allowed entry into the College Campus.

3. Prioritizing Pedestrians and Bicycles

To promote a safe and eco-friendly campus environment, the College prioritizes pedestrians and bicycles:

3.1. Pedestrian Zones: Certain areas within the College Campus are designated as pedestrian-only zones. Vehicles, including bicycles, are not allowed in these areas.

3.2. Bicycle-Friendly Campus: The College encourages the use of bicycles and provides designated parking areas for bicycles.

4. Compliance and Accountability

4.1. All members of the College community, including students, faculty, staff, and visitors, are expected to comply with this Eco-Friendly Vehicle Usage Policy.

4.2. The Principal, Dr. Yojana Jugale, is responsible for enforcing and monitoring compliance with this policy.

Policy for Disabled Students and Faculty

Effective Date: June 15, 2019, Valid till next update.

Introduction:

Hon. Shri Annasaheb Dange ACS College, we are committed to fostering an inclusive and accessible learning environment for all members of our community, including students and faculty with disabilities. This policy outlines our dedication to ensuring that disabled individuals have equal opportunities to pursue education and professional growth.

Policy Details:

1. **Equal Access:** We guarantee equal access to all educational programs, facilities, and resources for disabled students and faculty. Reasonable accommodations will be provided to ensure an inclusive learning and working environment.
2. **Accessible Infrastructure:** Our college will strive to maintain accessible infrastructure, including ramps, elevators, and appropriate restroom facilities, to facilitate easy mobility for individuals with disabilities.
3. **Support Services:** Special support services, such as assistive technologies and note-taking assistance, will be provided to disabled students to facilitate their academic progress.
4. **Faculty Training:** We will conduct regular training sessions for faculty and staff to create awareness about the needs of disabled individuals and promote inclusive teaching practices.
5. **Confidentiality:** Information regarding disabilities will be kept confidential. Faculty and staff members will be informed only on a need-to-know basis to provide appropriate support.
6. **Grievance Redressal:** A designated committee will handle grievances related to disability accommodations. Students and faculty members are encouraged to report concerns promptly.

Achievement Report: Green Campus Initiatives

Hon. Shri Annasaheb Dange ACS College, Hatkanangale

Introduction: Since the inception of the Green Campus Policy on June 1, 2019, under the guidance of Dr. Yojana Jugale, Principal, our college has made remarkable strides towards sustainability and environmental responsibility. This report highlights the significant achievements and initiatives undertaken in alignment with the Green Campus Policy.

Energy Efficiency and Conservation:

1. **Renewable Energy:** Solar street lights, solar water heating systems, and sensor-based bulbs have been successfully implemented, leading to a significant reduction in our reliance on fossil fuels and a considerable decrease in greenhouse gas emissions.
2. **Energy Conservation:** Ongoing maintenance and upgrades in adherence to energy efficiency standards have resulted in minimized energy consumption across campus facilities.

Waste Management:

1. **Solid Waste Management:** Through our partnership with Nagar Panchayat and Adinath Computers Ichalkaranji, responsible solid and electronic waste disposal has been ensured. Waste segregation initiatives have been reinforced, substantially reducing our environmental impact.
2. **Liquid and Chemical Waste:** Environmentally sound methods, including the use of sinkholes, have been employed for the treatment of liquid and chemical waste, guaranteeing responsible management and preventing harm to the environment.

Water Conservation: Efficient water treatment and recycling practices have been implemented, significantly minimizing water wastage. Treated water is utilized for various purposes, promoting responsible water usage across the campus.

Green Transportation: Implementation of "No Vehicle Day" on the last Saturday of every month has successfully reduced emissions within the campus. The promotion of bicycles and pedestrian-friendly pathways has created a healthier, eco-friendly transportation environment.

Environmental Education and Awareness: A variety of programs, including workshops, seminars, tree-planting events, and awareness campaigns, have been regularly organized. These initiatives have empowered our community with knowledge and motivation for sustainable living, encouraging proactive stewardship of our planet among students and staff.

Compliance and Accountability: The principles outlined in the Green Campus Policy have been fully embraced by all members of the College community, including students, faculty, staff, and visitors. Dr. Yojana Jugale, as the Principal, has played a central role in enforcing and monitoring compliance, ensuring our commitment to sustainability is upheld.

Policy Review and Update: Regular reviews have been conducted to assess the policy's effectiveness. Updates and revisions have been made as necessary, aligning the policy with evolving best practices and environmental regulations.

We take pride in our achievements and remain steadfast in our commitment to a sustainable future. Our efforts continue to make a significant impact, fostering a greener campus and inspiring positive change in our community.

Date: 30th May 2023.
